

What is it you want to achieve?

Future state	Purpose	Particulars	People	Barriers
What is the vision?	Why does it matter?	So, what changes do we need to make?	Who are the people we are targeting to change practice?	What could make these changes a real challenge?
			Who else needs to know?	
What would success look like for the people who are accessing services?			How could that be measured?	
What would success look like for the workers?			How could that be measured?
